introduction to business management 11e offers an overview of business management within the south african context the textbook is written for undergraduate students who are doing a course in introductory business management as part of their degree or diploma at a university or university of technology

though scores of books have been written by western and indian authors on principles of management there is always a place for a book which is to the point brief yet comprehensive authentic and reliable and presented in indian setting in a simple language free from technical jargon the authors of this book have emphasised these characteristics to present an ideal textbook on the subject this book covers the courses in principles and

theory of business management it has been presented in an analytical style to make the subject easy to understand and easier to memorise questions at the end of each chapter have been drawn from the latest actual university papers so that the student may practice for examination

the world is in a constant state of flux and this influences the operations of every business and organisation business management a contemporary approach deals with these changes by covering the functions of a business or an organisation and then addressing the contemporary issues that affect them these issues include globalisation corporate entrepreneurship and citizenship credit diversity and hiv aids every student of business and business manager needs to understand the importance of these issues and their influence on the operations of a business business management a contemporary approach also highlights the interdependency between the various business functions this interdependency is very important for a business or organisation to operate as a whole

businesses deliver value to their stakeholders including customers employees suppliers communities and shareholders therefore value creation is pivotal to management theory but there is a lack of agreement amongst scholars about value at the conceptual level this book uses invariant properties of human activities to develop a novel theory of value to help resolve controversies and integrate scholarship from different specialisms to establish boundaries for the task of integration business management and organisation scholarship is identified as being an applied supra disciplinary mega field its fragmented nature means that different academic fields such as strategic management and marketing approach the concept of value in distinct ways based on their respective roots in economics and other social sciences tracing the evolution of ideas on value over time a new theoretical framework is developed the integrating theory of value co creation as an alternative to existing theories on value creation for individuals and organisations the cornerstone of the integrating theory of value co creation is that exchange is the fundamental basis for value co creation which enables it to cover both provider and customer perspectives given its interdisciplinary approach this book will appeal to any social scientist interested in the management of organisations

contains information on economic systems entrepreneurship productivity planning marketing public relations

dieses buch bietet einen verständlichen und praxisnahen leitfaden für alle die it nicht nur technologisch sondern vor allem wirtschaftlich erfolgreich steuern wollen es erklärt wie tbm als framework die it leistungen transparent und businessorientiert macht und wie itfm mit bewährten controlling methoden budgets kosten und investitionen planbar macht von den grundlagen über methoden servicekataloge und tools bis hin zu modernen themen wie finops ki im forecasting und green it zeigt das buch schritt für schritt wie it zum strategischen partner des business wird zahlreiche best practices anschauliche beispiele und checklisten erleichtern die direkte umsetzung in der praxis egal ob mittelstand oder konzern dieses werk liefert cios it controllern und business verantwortlichen den
